

NO BONES ABOUT IT

June 9, 2010

DENNIS NOLAN LOOSES TO ELIZABETH HALSETH IN STATE SENATE RACE FOR DISTRICT 9 BY A HUGE MARGIN AND THIS IS GOOD NEWS FOR MOTORCYCLE RIDERS IN NEVADA !!!!!

This guy has been a long time supporter of the helmet law in Nevada and I told him that I would do everything that I possibly could to see that he was defeated and he was. Today is the beginning of a long tough battle that will be fought for the rights of not only every biker but for the rights of every person in the state of Nevada. The fact that Dennis the menace Nolan has been defeated in Senate District 9 is almost enough to restore my faith in the political machine that runs Nevada. We had huge success in the primaries and with that I can only hope that between now and the general elections in November we can change the change that nobody wants.

Now is the time for all of you to investigate your party's choice and get behind the person that will most serve your needs while in office. The future of motorcycle riding rests in the way this election goes. If we allow the people that are against our freedoms to continue on the path that they are on, laws directed at motorcyclists will become more intense and harder to overcome in the future. The strong showing of support by the people that have had enough of the "Good Ole' Boys" type of politics, shows me that we are taking an interest in our lawmakers and are ready to hold them accountable once again for their actions. It also shows me that many of you are again willing to stand up and make the difference by voting.

I would like to think that all of the positive results in this election were due to the effort put forth by you and the rest of the riders in the state from Northern Nevada, Bolt and the COC's. I do believe that we made a difference as to the way the elections went here in Clark County, as I know that many of you took the time to vote and I appreciate it.

I am now going to be like the kid that never quits asking for that candy bar until you give in or I get swatted. I want you to vote, I want you to vote, I want you to vote, I want you to vote, I want you to vote, I want you to vote. This is the time for action from the people that want to do something to get rid of the politicians that have systematically taken this state from great to garbage in a few short years. I don't know how many times that I have said this before but I'm going to say it again, **YOU CAN MAKE A DIFFERENCE**, and **ONE VOTE DOES COUNT**. You have proved it in Senate District 9 by beating Nolan by almost 13% of the vote. If you were at the ABATE meeting in May you got to meet some of the candidates that won the primary when they spoke to the membership. To the candidates that succeeded, congratulations, for those that we supported and lost the primary, there will be another election in two years, we will be stronger and we will stand behind you for support in your next campaign again.

To the membership I say thank you for helping get these candidates elected and becoming a part of the process to stop unnecessary legislation toward motorcycles in Nevada. You must realize how important you are to the political process and have taken the initial step letting government know how you feel about their intervention into your daily life.

Find out who will represent you in the general election in November and try to support them. Hand out fliers, talk to people, and make phone calls, whatever it takes. We have people like Brian Sandoval running for the Governors seat and he has made it quite clear that he is willing to use his position to help us and will sign an appeal to the helmet law. We have more senators on our side this time and the Assembly has also shown more support. I will go to Carson City again

this year and I will do everything in my power to convince the legislation in both houses to allow us to once again ride free. This is what I promised to do when I took this project on or I will die trying. I do need you to do one small thing to help me with this battle. I need you to support the people in your district that are friendly to our cause and will commit to helping us. I can give you their names if you call me or e-mail me and tell me where you live. I will even write the letters for you and send them if I have to but I need you to back me to get this done.

Feel free to write or call me anytime with any questions that you may have or any information that you think might need to be passed along. I can be reached at BONES@abatesnv.com or irbones@cox.net and at the main number for ABATE 702-731-6453.
